THE Unitarians, Universalists and Friends have women preachers, and now the Methodist Protestant church has fallen into line. The conference of that church at Tarrytown, New York, on Friday ordained Miss Shaw, of Massachusetts, and licensed her to preach the gospel. The world is moving.

THE New Orleans Times states that Captain

So that the law of the Protestant Episcopal church, as it now stands, permits the remarriage of divorced persons and the remarriage of divorced persons and the remarriage. The government has before it the question of filling the place made vacant by the death of General Myer—"Old Prob." It seems from the delay that there is some difficulty in making a decision or in securing a man with the requisite ability. This ought not to be the case. In Captain Howgate, now employed in the weather bureau, the government possesses not only a faithful and efficient officer, but one who by his skill, study and readiness of resource has proven himself just the man for the place. The bull accuse us of treachery and again appeal to the loyalty of the north. There acknowledged by the government, and why walked his services have already been freely appeal to the loyalty of the north. There are acknowledged by the government, and why it should hesitate to appoint him and thus secure to the country his directing care and discremination greatly puzzles people at this distance who know nothing of the powerful influences brought to bear upon the heads of departments and even the President himself to find the Wolf, the author of Mighty Doller, they are wholly unsited to fill. Captain Hougasie has placed the people of the Harrison combinations. It is lightly only great of constant agitation for the part of the powerful to find the world's history has entirely at the third to fill. Captain Hougasie has placed the people of the lower valley of the Missistippi under weighty obling actions for scientific observations of great walne to our planters. As a requiral for these we should be glast to assist in placing him in placing him in a situation where he could not only continue to help the made General Myer's successor.

The southern Democrats have been taken up into a high mountain and have been shown the rich pastures in which they can graze and the fertile lands they can own, but somehow or other there seems to be a hitch in the negotiations. There seems to be two insuperable objections to the transfer. One is the southern Democrats won't be transferred, and the other is that the Republicans don't desire it. The St. Louis Globe-Democrat of Wednesday last says:

The joint committee to whom was referred the subject of "Deaconesses and Sisters" respectfully report that they have duly considered the whole question, and having come to the conclusion that it is inexpedient at the present time to attempt any specific legislation on the subject of sister-hood, they have confined themselves to the preparation of a canon "of deaconesses," which they herewith submit, recommending the passage of the following resolutions:

the above extract are mest heartily echoed by the Republican party. Here in Memphis William R. Moore, in addressing an audience, villifies and stigmatizes the southern people as midnight assassins, deserving the punishment of hell, and the St. Louis Globe-Democrat repeats the christian utterance by declaring that it is "too late for repentance and orgiveness;" that "the earth is tired of them, and heaven has no place for them," and that there is nothing left for us to do but to go to hell. First—Women of devout character and approved fitness may be set apart by any bishop of the church for the work of deaconess according to such form as shall be authorized by the house of bishops, or in default thereof, by such form as may be set forth by the bishop of the diocese.

Second—The duties of deaconesses are declared to be the care of our Lord's poor and sick, the education of the young, the religious instruction of the soung the religious instruction of the newtood, the reclaiming of the fallen, and other works of christian charity.

Third. No woman shall be set apart for the work of deaconess until she be twenty-five years of sign unless the bishop for special reasons shall determine otherwise, but in no case shall her age be less than twenty-one years. The bishop shall also satisfy himself that the applicant has adequate preparation for her work, both technical and religious, which preparation shall have covered the period of at least one year.

Fourth. No deaconess shall work officially in her diocese without express authority in writing from the bishop of the diocese, nor in any parish without the permission of the rector or minister thereof.

Pith. Deaconesses may be transferred frem one diocese to another by a proper letter dismissary at the request of the bishop to whose jurisdiction they are to be so transferred.

Sixth. If a deaconesse should at any time resign her office, she shall not be restored thereto unless, in the judgment of the bishop, such resignation was for weighty cause; and no deaconess shall be removed from office by a bishop except with the consents of two-thirds of the members of the standard concesses, or any community in which such institution or community in which such institution or community shall have his sanction, and shall be in harmony with the usage of his church and the principles of the Book of Common Prayer.

The south submitted to reconstruction, accepted the constitutional amendments. voted for Greeley (the founder of the Republican party), showed our loyalty in nominating Hancock, by whose hands secession died at the hights of Gettysburg; but still we are to be sent to hell. There has been perfect peace in the south since the southern States passed from the rule of carpetbaggers into the hands of the Democrats. IMPORTANT SUIT

To Appropriate Road-bod of Memphi and Charleston Railroad for the Pur-pose of Putting up Poles and Wires of American Union Tele-graph Company.

At the Shelby circuit court a petition has been filed by the American Union telegraph company against the Memphis and Charleston railroad company and the East Tennessee, Virginia and Georgia railroad company for an appropriation of road-bed. The points of the case are as follows, Mr. Lehman representing the petitioner and Messrs. Humes and Poston the defendants:

and Poston the defendants;

The American Union Telegraph company filed October 12, 1880, in the afreuit, court, its potition asking the court to condemn the right of way over the Memphis and Charleston railroad from Memphis to grand Junction for its telegraph poles and wires. Humes & Foston, on behalf of the Memphis and Charleston railroad company, resisted the petition on the grounds: First, that the service was made on the secretary and treasurer. (This Judge Pierce decided agrinst them.) Second, that the American Union Palegraph company was a foreign corporation; could not come into Tennessee and condemn the property of a private person without a special act of the legislature and authority from the State, and asked to be allowed three days to plead, which was granted, and the motion is set for argument on Thursday next.

Conservative Republicans for Hancock.

New York, October 18.—The National association of conservative Republicans has issued an address to the friends of General Hancock and of the constitution and Union asking their earnest co-operation in the National effort to bring out to the polls on the 2d day of November, first, all who think the same with them and with the conservative Renublicans concerning the republic. They

same with them and with the conservative Republicans concerning the republic. They prophesy the repetition of the election in 1876. The address states that in Indiana and Ohio large bodies of fraudulent voters were shamelessly brought to the polls by the Radical managers, many of whom fill posts in the public service and draw pay from the treasury of the United States. In Indianapolis and Cincinnati alone the closing of the polls showed an aggregate of votes deposited in the ballot-box of two cities, exceeding by more than 5000 the census returns of men of voting age included in their population. The association calls upon the people to come forward and unite with them in raising, by single subscriptions of five dollars each, a great popular fund for defense of the polls. This fund is to be regarded by the people as a voluntary poll tax levied by themselves to keep access to the polls in November free from fraud and force.
